

Passionate and technical Software Developer with a strong sense of code quality and design. Three years of professional experience as a software developer, including two years in the games industry and one at an integrated circuits company. Currently working with games in spare time and very eager for a chance to again extend this joy to a full-time job. Living in Brazil and hoping for the opportunity to relocate to another country and be part of a different culture.

Skills

Advanced Extensive experience with C++, C#, version control software (especially git), and Unity3D.

Intermediate Experience with Python and Java for desktop application development. Strong mathematical skills, mostly in linear algebra, calculus and analytical geometry. Experience with Lua and Love2D game framework.

Basic Understanding of game engine architecture, computer graphics and OpenGL.

Languages Native portuguese speaker. Fluent spoken and written english.

Experience

2010-2012 **Researcher**, *Group of Mobile Computing Systems (GMob)*, UFSM, Santa Maria.

Member of a mobile computing research group, developed a few prototype applications for Android and J2ME devices.

2012-2013 **Game Programmer**, *Decadium Studios/IMGNATION Studios*, Santa Maria.

Worked using Unity and C# to develop two mobile games, NBB Game (Aquiris Studios, Sports) and Dodge This! (IMGNATION Studios, Action). Responsibilities included mainly UI and gameplay coding.

2013-2014 **IT Analyst/Programmer**, *Santa Maria Design House (SMDH)*, Santa Maria.

2014-Present **Software Development & IT – Team Leader**, *Santa Maria Design House (SMDH)*, Santa Maria.

Responsible for the development of compilers, hardware emulators and other development tools for proprietary microcontrollers. Main tools used are C++ and C#.

2014-Present **Independent Game Developer**, <http://hstefan.com/demos>.

Game demos and remakes of classic games.

2009-Present **Misc. Projects**, <https://github.com/hstefan>.

Mostly utilities and experiments.

Education and Awards

2009-2013 **Bachelor of Computer Science**, *Universidade Federal de Santa Maria*, UFSM.

2011 **ACM ICPC Competition**, *ACM-ICPC*.

40th place in the 2011 Brazilian finals
